

# The Ideal FRx Replacement Suite

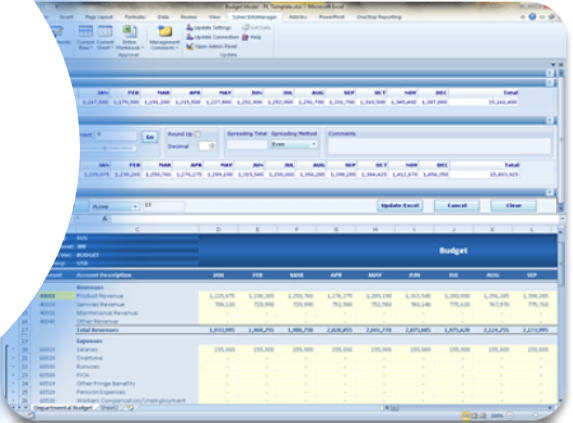

Sooner or later, you're going to have to replace FRx. **BI360** can provide you with replacement on your reporting needs and much more! It is the ultimate **Excel-based Reporting, Budgeting & Dashboard** solution. And a **Data Warehouse**, to connect all of your data sources!

With out-of-the box integration to many major ERPs, BI360 offers a solution with capabilities that include **Excel-based reporting and budgeting, Excel or Web-based dashboards** and a **preconfigured data warehouse**. Mix and match the modules you need, use the entire suite, or buy one module at a time as your organizational needs grow. All of our customers agree, BI360 is the right alternative for companies looking for the **next-generation** reporting and budgeting solution.

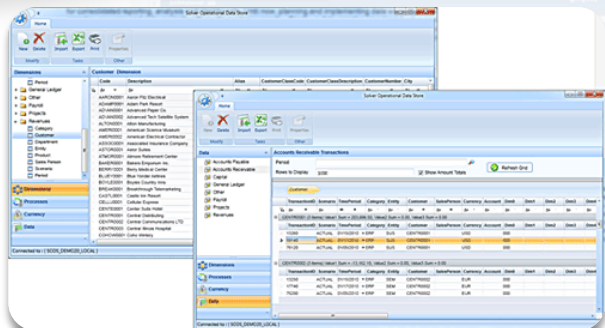

Reporting

Budgeting

Dashboards

Data Warehouse
